My Hometown

Ungaran, Semarang

I'm a fresh graduate with a Bachelor's degree in Informatics Engineering from Dian Nuswantoro University. I specialize in both mobile and web application development, with hands-on experience using Kotlin, Flutter, Laravel, and Node.js. Throughout my academic and internship journey, I have successfully developed and maintained several applications, ranging from internal HR systems to mobile apps for operational analysis. I am a fast learner, passionate about technology, and eager to take on new challenges that allow me to grow professionally. I am also flexible with relocation and committed to contributing wherever my skills are most needed.
